Customer Reviews

I have a friend who is really into books, and he told me that I should read the Michael Vey series, and since he knows what he's talking about, I decided to read Michael Vey: The Prisoner of Cell 25. The plot is a crazy goose chase all centered around Michael trying to find his kidnapped mother. He and his friends, Ostin, Jack, Taylor and a group of several others travel from their home town in Idaho all the way to California to find Michael's mom. But, Michael and Taylor have some special abilities. They are electric. Taylor can reboot people and give them short term memory loss, and Michael can create an electric field around him with enough power to knock a full grown man on his back. Using these special powers, they have to find the Elgen Academy, led by the evil Dr. Hatch. I liked this book because of how in depth the characters were described. The description of each person was a really good way to make the book interesting. I also like how well the plot was thought out. The way that you could feel how the characters feel. Dr. Hatch was also one of the greatest villains ever in a book. The thought that was put into this book seemed unreal. Overall, one of the best books I've ever read. It is a must read book. Written by Skylar, 7th grade

Gave these to my 11 year old grandson for Easter, and he has already read both, and got #3 for his e-book. I have read all of them on my Kindle and can't wait for the next one!! Very exciting series.

Great book for 10 - 13 yr olds!! I am an adult who reads a lot of YA books & am loving this series! Richard Evans can 'paint' a clear image in the mind's eye without taking 2 or 3 pages of boring adjectives to do so.. Love this author!

This must be a good book, as my grandson is reading it for the fourth time.

My son loves the Percy Jackson books and the Michael Vey series is right up there...he doesn't want to put the book down.

I mentor a 6th grade boy and we have been reading this wonderful book together. He told me he

has really gotten "into reading" because of this book! Thank you.

Bought this series for two of my grandsons and they read it in record time. I read it myself and enjoyed it, as well, but it will really appeal to young teens.

Really engaging action and interesting characters. Similar to a Harry Potter type of story.
