## Customer Reviews

Everyone in Ollie's class was the best at something, but he just didn't seem to stand out in anything to be "the best" in. One day, Mr. Hopper their second grade teacher announced that Chef Antonia was coming to the class. That was great news because everyone in the class had seen her on TV and Ollie just LOVED her! "She threw food in the air. She set desserts on fire." Talk about a fun show. The assignment was that everyone had to cook their "Family Favorite" as a special treat for Chef Antonia. Ollie loved everything about cooking so that assignment would be a snap! Or so he thought . . . His mother, father, sister Rosy and he tried, but couldn't figure out what was the "Family Favorite." Ollie was getting upset because no one could agree and Chef Antonia was coming to

class very soon. Miguel, Luna, Nina, Sam and Sophie all had their selections, but not Ollie. He asked his family again about their favorite foods. Mom said, "I like macaroni." Dad said, "Cheese." Rosy said, "Macaroni and cheese . . . but only if it has a face." Now Ollie knew what he was going to make and hopefully Chef Antonia would think it wasn't too silly. Every child has something they are good at and, like everyone else, Ollie wanted to be the best at something. This book had a nice flow to it, a touch of humor and a lot of fun. The illustrations were colorful and lent a lot to the mood of the story. This is a Level 2 "I Can Read!" book in which the student will be able to read most of the story with a bit of help now and then. The story is very interesting and will easily pull the student to the end of the book. Do you have someone in your house or classroom who wants to be the best at something?

I love to cook with my five year old son, so this book was perfect for us. I also like the idea in the book that Ollie competes with his classmates to be the best at something. It is good to encourage kids to do their best. My son liked this book also and it does have enough pictures to look at.

This book is great and is at the appropriate grade level for my son. There are certain subjects that he enjoys and this would be one of his since he started cooking some of his own things for himself.

My daughter loved this book! She loves to play kitchen, restaurant, and any other imaginary game you can think of with cooking. Because of this, I downloaded this book for her Kindle. She was so excited and read the book twice. She goes to the book on our Kindle to use as her "register."

This is my daughter's first book review...I am six years old and I love to cook with my parents. I really liked this book. I wish a chef would visit my classroom. The best part was the smiley face.

Way, way, way, too childish. It is good for kinder gardeners, but I hate that it is on my Kindle. I am only 9 years old and I dislike it.

We read a few mins each morning in the car waiting for school to start. The story is just long enough to get through in two days and short enough to keep them interested in hearing the ending.

Great book with a lot of challenging words for little readers. The proper names can be tough some times because they use weird names. But I'm not going to take any stars off for that.
