Wax To Crayons (Welcome Books: How Things Are Made)

Synopsis

Emergent-reader nonfiction takes on a whole new face! Consistent print placement, predictable text patterns and strong picture clues make this series ideal for emergent readers. Chocolate doesn't grow on trees -- or does it? Kids will be intrigued by this start-to-finish look at how their favorite things are made -- from chocolate and ice cream to crayons and paper.

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

I use this book in my first grade classroom to teach non-fiction text features and How To writing. It works well because it has a simple, straightforward format and deals with an item that students use every day. I like that the book, although short, has important examples of non-fiction features: a table of contents, important words in bold print, a glossary, and photographs. A good book for early elementary students.

I used this book when discussing where things come from with my kindergarten students. I liked it, but the pictures used seemed like they were from a small crayon making factory rather than a large one like Crayola or RoseArt.

This is a good book for young readers to take AR tests on. It is simple with challenging words and

they learn something valuable.
