This book focuses on being thankful for all things in life--from the smallest of things (the green grass, noses, giggles and many more) to the more important things in life (Mommy and Daddy and families). Prayers are very short and rhyme. Prayers about behaviors are included in this book such as a couple about being sorry for acting bad and learning to share. The book is small--perfect for tiny hands. This has been one of my very favorite books. I will buy this book for all new moms in the future. I definitely recommend this book and hope you enjoy it as much as I have.

Cute book, content what you expect of a child's prayer book. You can't tell how small it is though online. Think minibook, about the size of the palm of your hand. I was expecting a regular sized book.

I read these prayers to my infant over and over again. I would randomly choose different ones and seemed to always find something new. Now, my 18 month old will sit and flip the pages for 20-30

minutes at a time. Now, she loves all books so this is not unique to this book but I really love this book!

I purchased this book "Baby's First Book of Prayers" from to give to my daughter-in-law at her baby shower yesterday. This book is wonderful. It is a hardback book, it's super cute, and it has a place for you to put the "to, from, and date" inside the book. There are about 80 pages of prayers in this book to include 41 prayers. I have included a picture of the contents for you. I am extreme happy to have found this book, and I can't wait to hear her reading these prayers (as well as read them myself) to my sweet granddaughter in a couple of months. It's small size will also be perfect as she grows into a young girl who can read the book herself as she will be able to hold onto it easily. It also has beautiful bright illustrations sure to capture the heart and mind of your little one. I really can't recommend this book highly enough to you. It was a great find for sure!

I bought Baby's First Book of Prayers for my nephew's baptism. He is 2 1/2 years old so obviously he won't be able to read these himself. I would expect a parent to be praying with their young child anyway, so it's a none issue. The book is small and perfect for little hands. My sister loved it and couldn't wait to start reading it to him!

I like how this book uses cute prayers and prayers that a child would find relevant, rather than focusing on the formal prayers that a child would not relate to. I enjoy sharing it with my kids and think it is a good way to help make prayer a part of their night time routines.

This book has a large variety of prayers for all occasions. It's nice and small, but has large text so it's easy for little ones learning to read. The prayers are illustrated with appropriate and easy to depict images. I definitely prefer this book to the "Baby's First Bible" by the same author. It would make a very nice gift for a toddler or preschooler for Christmas, Easter, or other religious holiday.

I ordered several of these in my first order and later wondered if it was really a good idea since I had only read the online reviews. I am happy to say that I was not disappointed when I got my shipment. They really are very cute. I like the padded book front as well as the size of the book and its colors. It will do well for a boy or girl. The price is low but the quality is not. I plan on keeping these on hand to give to new parents along with a crocheted blanket.
